Plenary Addresses

The Business Case for Effective Mine Closure.....	3
P. Dowd & M. Slight, Newmont Australia Ltd, Australia	
Sustainable Mine Closure – Issues and Lessons Learnt.....	13
R. Kunanayagam, Rio Tinto Ltd, Australia	
Assessment of Landscape Function as an Information Source for Mine Closure.....	21
D.J. Tongway, School of Resources, Environment and Society, Australian National University, Australia & J.A. Ludwig, CSIRO Sustainable Ecosystems, Australia	
The Application of Cover Systems for Mine Closure – Are We Doing it Right?	31
G.W. Wilson, University of British Columbia, Canada	
Financial Assurance for Mine Closure and Reclamation.....	43
A. Fleury & A.S. Parsons, International Council on Mining and Metals, UK	
Ecological Drivers in Mine Site Rehabilitation	51
A. Díaz & I. Green, School of Conservation Science, Bournemouth University, UK, B. Smith, The Game Conservancy Trust, UK & I. Carrington, School of Conservation Science, Bournemouth University, UK	
Developing Completion Criteria for Native Ecosystem Reconstruction – A Challenge for the Mining Industry	61
O.G. Nichols, Australian Centre of Minerals Extension and Research, Australia	
Review of Environmental Performance Bonds in Western Australia	75
G. Cobby, Department of Industry and Resources, Western Australia	

Session 1: Planning for Closure

Why Do Mines Close?	83
D.C. Laurence, School of Mining Engineering, University of New South Wales, Australia	
Sustainable Development and Risk Assessment in Mine Closure – Case Study, Elliot Lake Uranium Mines, Canada	95
M. Wiber & D. Berthelot, Rio Algom Ltd, Canada	
Planning for Closure in Mali	107
G.G. Bradley, AngloGold Ashanti Mali, Yatela Gold Mine S.A., Republic of Mali	
Conditions for Mine Closure Strategy in Great European Coal Mines.....	117
C. Drebenstedt, Technische Universität Bergakademie Freiberg, Germany	
Integration of Groundwater Modelling with Mine Planning to Optimise Mine Closure Plans – The Marillana Creek (Yandi) Mine Story	131
J.W. Hall & H. Middlemis, Aquaterra, Australia, P.J. Waters, BHP Billiton Iron Ore, Australia & K.L. Rozlapa, Aquaterra, Australia	
Tailings Storage Facilities – Decommissioning Planning is Vital for Successful Closure	139
H.W.B. Lacy & K.L. Barnes, Outback Ecology Services, Australia	

Landscape Reconstruction Using Analogues at Ranger Mine, Northern Territory, Australia.....	149
<i>I. Hollingsworth, Earth Water Life Sciences Pty Ltd, Australia, J. Croton, Water and Environmental Consultants Pty Ltd, Australia, I. Odeh, The University of Sydney, Australia, E. Buli, University of Singapore, Singapore & D. Klessa, Earth Water Life Sciences Pty Ltd, Australia</i>	
Challenges Faced by Large Mines in Botswana in the Development and Execution of Mine Closure Plans	161
<i>K. Abi, Department of Mines, Ministry of Minerals, Energy and Water Resources, Botswana</i>	
Western Australia's Inventory of Abandoned Mine Sites.....	169
<i>C.D. Strickland & W.R. Ormsby, Geological Survey of Western Australia, Australia</i>	
The Wismut Remediation Project.....	181
<i>M. Lersow & P. Schmidt, Wismut GmbH, Germany</i>	
Closure of Tailings Impoundments – Chilean Experiences.....	191
<i>S. Dal Pozzo & C. Andrade, Golder Associates S.A., Chile, J.A. Wates, Golder Associates Africa (Pty) Ltd, South Africa & B.J. Griffin, Golder Associates Ltd, Canada</i>	
The French Experience of Post Mining Management.....	199
<i>C. Didier, INERIS, Ground and Underground Division, France & J. Leloup, Ministry in Charge of Economy, Finance and Industry, France</i>	
Case Study at BHP Copper Inc. Copper Mine and Smelter, San Manuel, Arizona.....	211
<i>T. Braun, SRK Consulting (U.S.) Inc., USA & J. Parker, BHP Copper Inc., USA</i>	
Integrated Mine Closure Planning.....	221
<i>A. Fleury & A.S. Parsons, International Council on Mining and Metals, UK</i>	
Benefits of Planned Versus Unplanned Mine Closure and Strategies for Both	227
<i>S. Mackenzie & H.W.B. Lacy, Outback Ecology Services, Australia & D. Koontz, Aquaterra, Australia</i>	
Pilbara Iron's Approach to Sustainable Development During Mine Closure – The Case Study of Greater Tom Price and Pannawonica Operations.....	237
<i>M. Moller, Sinclair Knight Merz, Australia, R. Flugge, Pilbara Iron, Australia & D. Murphy, Sinclair Knight Merz, Australia</i>	
Tailings Dams – The Importance of Considering Closure at the Start of the Project.....	247
<i>K. Viveros & S. Barrera, Arcadis Geotécnica, Chile</i>	
The Choice of the Technical Liquidation of Underground Mine Workings.....	257
<i>J. Dvořáček & J. Štěrba, VŠB-Technical University of Ostrava, Czech Republic</i>	
Closure of the Stilfontein Gold Mine	261
<i>M. Marais, Mine Waste Solutions, South Africa, P.W. van Deventer & S.J. van Wyk, Fraser Alexander Tailings, South Africa</i>	
Reclamation of Granite Stone Quarry – A Case Study in Jostan Granite Mine, Tehran, Iran	269
<i>M. Osanloo, A. Hekmat & A. Aghajani, Department of Mining, Amirkabir University of Technology, Iran</i>	
Rehabilitating a Historical Coal Mine in Wangaloa, New Zealand – A Holistic Approach to Mine Closure	279
<i>P.B. Stenhouse & C.M. Evans, MWH New Zealand Ltd, New Zealand & D. Thomas, Solid Energy New Zealand Ltd, New Zealand</i>	

Session 2: Ecosystem Reconstruction and Pedogenesis

Decommissioning Alcoa's First Bauxite Mine in the Jarrah Forest of Western Australia – Cradle to Grave	287
<i>C. Grant, Alcoa World Alumina Australia, Huntly Mine, Australia</i>	
Mine Closure and Ecosystem Development – Alcan Gove Bauxite Mine, Northern Territory, Australia.....	299
<i>A.V. Spain, School of Earth Sciences, James Cook University, Australia, D.A. Hinz, MatrixPlus Consulting, Australia, J.A. Ludwig, CSIRO Sustainable Ecosystems, Australia, M. Tibbett, Centre for Land Rehabilitation, The University of Western Australia, Australia & D.J. Tongway, School of Resources, Environment and Society, Australian National University, Australia</i>	

Small Vertebrate Colonisers of Mine Site Rehabilitated Waste Dumps in the Goldfields of Western Australia.....	309
G.G. Thompson, Centre for Ecosystem Management, Edith Cowan University, Australia & S.A. Thompson, ATA Environmental, Australia	
When to Sow Your Seed for Optimal Forest Rehabilitation – Lessons from the Jarrah Forest of South Western Australia.....	319
T. Worthington & M.F. Braimbridge, Centre for Land Rehabilitation, The University of Western Australia, Australia, S. Vlahos, Worsley Alumina Pty Ltd, Australia & M. Tibbett, Centre for Land Rehabilitation, The University of Western Australia, Australia	
Experimentation into Use of Shallow Covers in the Rehabilitation of Sulphidic Mine Tailings, Stawell Gold Mine, Victoria, Australia	329
R.T. Watkins, EIGG, Department of Applied Geology, Curtin University of Technology, Australia, A.I. Dronila, School of Botany, University of Melbourne, Australia, D.W.G.T. Oldmeadow, EIGG, Department of Applied Geology, Curtin University of Technology, Australia & A.J.M. Baker, School of Botany, University of Melbourne, Australia	
Phosphorus Fertiliser Placement and Seedling Success in Australian Jarrah Forest.....	341
S.J. George, M. Tibbett, M.F. Braimbridge & S.G. Davis, Centre for Land Rehabilitation, The University of Western Australia, Australia, S.Vlahos, Worsley Alumina Pty Ltd, Australia & M. Ryan, School of Plant Biology, The University of Western Australia, Australia	
Soil Water Retention Properties as the Key Driver for Rehabilitation.....	351
R. Hattingh, Ticor South Africa, KwaZulu Natal, South Africa & C. Viljoen, Viljoen and Associates, South Africa	
Planning for Rehabilitation and Closure of the Coburn Mineral Sand Mine at Shark Bay, Western Australia	359
S. Finucane, B. Hardman, URS Australia Pty Ltd, Australia & D. Harley, Gunson Resources Ltd, Australia	
An Assessment of the Direct Revegetation Strategy on the Tailings Storage Facility at Kidston Gold Mine, North Queensland, Australia	371
D.R. Mulligan, M.J. Gillespie & A.J. Gravina, Centre for Mined Land Rehabilitation, The University of Queensland, Australia & N.A. Currey, Klohn-Crippen Berger, Australia	
Pedogenesis in Mine Tailings	383
P.W. van Deventer, Fraser Alexander Tailings, South Africa, A.A. Bloem, North West Department of Agriculture, South Africa & J.M. Hattingh, Cal Tech, South Africa	
The Effect of the Dispersive Nature of Tailings on Seedling Establishment and Survival	391
S.J. van Wyk, Fraser Alexander Tailings, South Africa & L. van Rensburg, School for Environmental Science and Development, Northwest University, South Africa	
Session 3: Hydrology of Post-Mining Landscapes	
Towards a Climate Based Risk Assessment of Land Rehabilitation.....	407
C. Hinz, G.S. McGrath & A.J. Hearman, Centre for Land Rehabilitation, The University of Western Australia, Australia	
Understanding Waste Rock Dump Hydrology is Essential for Effective Closure Planning and ARD Management.....	417
A. Wright, Metago Environmental Engineers, Australia	
Design, Construction and Performance Monitoring of the Large-Scale Waste Rock Cover System Field Trials at the Historic Mount Morgan Mine Site in Queensland, Australia	427
M. O’Kane, O’Kane Consultants Inc., Canada, G. Meiers, O’Kane Consultants Pty Ltd, Australia & C. McCombe, Department of Natural Resources and Mines, Australia	
Investigation of Hydrological Behaviour of In Situ Bauxite Residue for Closure and Rehabilitation Design.....	441
N. Amoah, Worsley Alumina Pty Ltd, Australia, J. Phillips, GHD Pty Ltd, Australia & S. Vlahos, Worsley Alumina Pty Ltd, Australia	
Mine Closure and Reclamation – Some Practical Examples in Different Climatic Settings.....	453
S. Barrett, Water Management Consultants Pty Ltd, Australia, G. Beale & J. Reidel, Water Management Consultants Inc., USA	

A Reflection and Analysis of the Waste Rock Dump Closure Strategies at Kidston Gold Mine	463
G.J. Williams & D.R. Mulligan, The University of Queensland, Australia & N.A. Currey, Klohn-Crippen Berger, Australia	

Session 4: Financing Closure

The Surety Conundrum	475
H. Jones, Golder Associates Pty Ltd, Australia	
Planning for In-Perpetuity Mine Closure Costs	487
G.L. Pierce, BHP Billiton, Base Metals, Canada & M.E. Wen, Rescan Environmental Services Ltd, Canada	
Better Closure Cost Estimates	493
A.H. Watson, MWH Americas Inc., USA	
Financial Valuation of Mine Closure Alternatives	499
C. Drebenstedt, Technische Universität Bergakademie Freiberg, Germany	
Mine Closure Planning – The Auction Process as an Option to Assist with Financing Closure	509
C.D. Dodd, Dodd and Dodd Group Pty Ltd, Australia, F. Lee & R.C. Marshall, Ross's Auctioneers and Valuers, Australia	
The Role of Closure Planning in the Environmental and Financial Reporting Processes for Mining Operations	513
G.J. Wiid, Epoch Resources Pty Ltd, South Africa	
Calculating a Realistic Security Bond and Assessing True Mine Closure Liabilities	525
M. Woolley, URS Australia Pty Ltd, Australia & A. Hutton, GSS Environmental, Australia	

Session 5: Landform Stability

Integrating Waste Characterisation into Landform Design for Low-Risk and Low-Cost Mine Closure	539
D.A. Jasper, Landform Solutions, Australia, M.F. Braimbridge, Outback Ecology Services, Australia, H.W.B. Lacy & M. Russell, Landform Solutions, Australia	
Optimising the Erosional Performance of Store and Release Covers Through Appropriate Landform Design	549
G. McPhail & A. van Koersveld, Metago Environmental Engineers, Australia	
Innovative Mine Closure Design Based on Observations of Mine and Natural Analogues	559
D.J. Williams, The University of Queensland, Australia & J.T. Kline, BHP Copper, San Manuel Mine, USA	
Development of Key Performance Indicators for Rehabilitation, Murrin Murrin Nickel Operation	569
R. Loch, Landoch Pty Ltd, Australia, T. Stevens, Murrin Murrin Operations Pty Ltd, Australia, G. Wells, G and E Environmental, Australia & R. Gerrard, Rally Revegetation and Environmental Services, Australia	
Assessing Landscape Reconstruction at the Ranger Mine Using Landform Evolution Modelling	577
J.B.C. Lowry, K.G. Evans, D.R. Moliere, eriss, Department of Environment and Heritage, Australia & I. Hollingsworth, Earth Water Life Sciences Pty Ltd, Australia	
Thresholds, Triggers and Time – Erosion Risk on Evolving Reclaimed Landforms after Bauxite Mining in the Darling Range, Western Australia	587
F.C. Mengler & R.J. Gilkes, Centre for Land Rehabilitation, The University of Western Australia, Australia	

Session 6: Contaminant Risks and Off-Site Impacts

Use of Airborne Hyper-Spectral Remote Sensing (HSRS) to Focus Remediation and Monitor Vegetation Processes on Gold Mining Landscapes in South Africa	601
I.M. Weiersbye, School of Animal, Plant and Environmental Sciences, University of the Witwatersrand, South Africa, N. Margalit, T. Feingersh, G. Revivo, R. Stark, Y. Zur, D. Heller, O. Braun, Bar-Kal Systems Engineering, Israel & E.M. Cukrowska, School of Chemistry, University of the Witwatersrand, South Africa	

Closure Pit Lake Water Management Options, Betze-Post Pit, Nevada, USA	613
W. Schafer, Schafer Limited LLC, USA, M. Logsdon, Geochimica Inc., USA, G. Zhan, Barrick Gold Corporation, USA & R. Espell, Barrick Gold of Australia, Australia	
Sulfidic Mine Wastes at Wodgina – Assessment of the Current Waste Rock Dump Design	623
C.M. Linklater, A.M. Garvie & M.J. Comarmond, ANSTO Minerals, Australia & M. Walsh, Sons of Gwalia, Wodgina Operations, Australia	
An Approach to Deriving Surface Water Quality Criteria with Implications for Closure – Ranger Mine Case Study	635
D. Jones, C. Humphrey, M. Iles & R. van Dam, Supervising Scientist Division, Department of Environment and Heritage, Australia	
Investigating the Linkage Between Water Fluxes, Geochemistry and Water Quality in the Post-Closure Landscape of the Mt Leyshon Mine, Queensland	647
M. Edraki & T. Baumgartl, Centre for Mined Land Rehabilitation, The University of Queensland, Australia & R. Haymont, Newmont Australia Ltd, Australia	
Properties and Quality of Soils and Nutrients Status of Plants on Cilacap Iron Sands Mine Sites.....	657
A. Yulianto, PT Antam Tbk, Indonesia & I. Suwarno, Department of Soil Science and Land Resource, Bogor Agriculture University, Indonesia	
A GIS-Based History of Gold Mine Residue Deposits and Risk Assessment of Post-Mining Land-Uses on the Witwatersrand Basin, South Africa	667
M.W. Sutton & I.M. Weiersbye, School of Animal, Plant and Environmental Sciences, University of the Witwatersrand, South Africa, J.S. Galpin, School of Statistics and Actuarial Sciences, University of the Witwatersrand, South Africa & D. Heller, Bar-Kal Systems Engineering, Israel	
Prediction of Long Term Water Quality in Acidic Pit Lakes	679
C. Oldham & U. Salmon, School of Environmental Systems Engineering, The University of Western Australia, Australia, M. Hipsey, Centre for Water Research, The University of Western Australia, Australia, G. Ivey & G. Wake, School of Environmental Systems Engineering, The University of Western Australia, Australia	
A Risk Based Approach to Tailings Facility Closure – A Case Study.....	689
D. Luppnow & S. Boyce, SRK Consulting (U.S.) Inc., USA	
Mine Closure as a Driver for Waste Rock Dump Construction.....	697
D.J. Williams, The University of Queensland, Australia	

Session 7: Success Criteria

Incorporation of Terrestrial Invertebrate Data in Mine Closure Completion Criteria Adds Sensitivity and Value.....	709
J.D. Majer, G. Orabi & L. Bisevac, Department of Environmental Biology, Curtin University of Technology, Australia	
Indicators of Success for Mine Site Restoration in Tropical Moist Forest Ecosystems	719
D.A. Jasper, Outback Ecology Services, Australia, E.J. Veneklaas, The University of Western Australia, Australia, O.G. Nichols, Environment Management and Research Consultants, Australia & D.J. Tongway, School of Resources, Environment and Society, Australian National University, Australia	
Quantification of Rehabilitation Success on Mine Site Waste Dumps	731
S.A. Thompson, ATA Environmental, Australia & G.G. Thompson, Centre for Ecosystem Management, Edith Cowan University, Australia	
Operational Environmental Systems for Mine Closure	741
R.K. Steedman, GHD Pty Ltd, Australia	
Monitoring for Rehabilitation Completion and Mine Closure.....	751
M. Ward, D.A. Jasper & C. Payne, Outback Ecology Services, Australia	
Legislating for Quicker and Better Rehabilitation	761
I.H. Wilson, Environmental Protection Agency, Australia	

Phoenix – A Mine Environment Data Visualisation and Management System 773
A. Pudmenzky, L. Rossato, G. McIlveen & D.R. Mulligan, Centre for Mined Land Rehabilitation, The University of Queensland, Australia

Evaluating Rehabilitation of Sand Mined Sites at Tomago, NSW – Measuring Success and its Criteria 781
H. Suhartoyo, D.R. Mulligan & D. Doley, Centre for Mined Land Rehabilitation, The University of Queensland, Australia

Session 8: Social Impacts

Elephants and Ancients – A Case Study in Sustainable Mine Closure Planning at the Mupane Gold Mine, Botswana 793
S. Finucane, URS Australia Pty Ltd, Australia & R. Gallinger, IAMGOLD Corporation, Canada

Faultlines in Mine Closure Planning in a Developing Country Context..... 803
D. Limpitlaw, University of the Witwatersrand, South Africa & M. Hoadley, South Africa

The Economic and Social Aspects of Mine Closure at the Coal Mines of Kerman in Iran 811
G. Saeedi, Mining Engineering Department of Shahid Bahonar, University of Kerman, Iran, M. Osanloo, K. Shahriar & E. Bakhtavar, Mining and Metallurgical Engineering Department, Amirkabir University, Iran

Socio-Economically Sustainable Communities Post Mine Closure – A Case Study of the South African Coal Mining Industry 819
N. Molefe, M.P. Molapo & B.P. Chunderdooj, Council for Scientific and Industrial Research (CSIR), South Africa

The Socio-Economic Implications of Mine Closure – A South African and Zimbabwean Scenario..... 829
M. Mugonda, Sustainable Development Division, Mintek, South Africa

Strategies in Mine Closure Vis-à-Vis Some Indian Underground Mines 835
J. Singam, National Institute of Rock Mechanics, India, L.K. Balla, Golden Valley Institute of Technology, India & D.P. Singh, Banaras Hindu University, India

Author Index 843
